PURPOSE AND OBJECTIVE

The purpose of DETC is to serve the children of our community by providing an opportunity for youth to participate in a program of the highest standards that promotes healthy competition, positive attitudes in athletics and everyday life and academic success

The objective of DETC is to augment the physical and mental development of children through learning and running track. It is the intention of DETC to give all eligible individuals the opportunity to participate in the American tradition of youth sports that encompasses instilling the sense of teamwork, the excitement of victory and the character-building exercise of facing defeat with dignity.

We will seek to reinforce the ideas of honesty, loyalty, courage, respect, and good sportsmanship in each player. We will strive to teach the concept of team involvement, discipline in work ethic, and the realization of achievement that will nurture children socially.

In addition, we will provide an opportunity for youth to learn the fundamentals of track and field. The children will be challenged both physically and mentally in a safe and controlled environment. The track meets, although competitively structured, will not put more emphasis on winning than on sportsmanship and developing positive community values.

Youth Classifications in USA Track and Field

This represents how your child will be classified in running events. If your child is under the age of eight years old, at most events the staff will attempt to put the kids together in the same age range, i.e. 5-year olds together, 6-year olds together etc. In some cases, this might not happen. The coaches will make every effort to help facilitate this, however; In some cases, we may be unable to do so. It is about fun and sportsmanship.

Youth competitions take place in six (6) 2-year [age divisions](#), from 8 & under through 17-18.

Youth Age Divisions

Youth competitions typically take place in two-year age divisions. These age divisions provide young athletes the opportunity to compete with other athletes of similar ability. The age divisions for **competition year 2019** are as follows:

Year of Birth

8 & Under 2011-2014*

9 - 10 2010-2009

11 - 12 2008-2007

13 - 14 2006-2005

15 - 16 2004-2003

17 - 18 2002-2001

*** Per USATF Rule 300.1 (c) "Athletes must be at least seven (7) years of age on December 31 of the current year to compete at the Youth Athletics or Junior Olympic National Championships."**

PARENTING & COACHING

Both parenting and coaching are very difficult responsibilities but very rewarding. By establishing an understanding between coaches and parents, both can accept the actions of the other and provide a more positive experience for everyone.

Parents have the right to know, and understand, the expectations placed on them and their children. Coaches have the right to know that if parents have a concern. All concerns must be discussed with the coach(es) at the appropriate time and place designated by the coach(es).

PRACTICES

Practices are of the utmost importance and set the tone for the athletes. During practice, we will push your child very hard. We may appear to ask them to work harder, run faster and encourage them in a pushy way. This is a part of building the body to listen to the mind. For example, when running a marathon, somewhere along the 26-mile journey the body says that is exhausted and cannot go on, but the mind tells the body it can keep going. This is how athletes can finish the race. Practice is what builds the kids body to perform well during the track meets. We teach kids that what they do on Sunday, Tuesday & Thursday sets the tone for performing well on Saturday during the meet. Keeping the body well-conditioned and avoiding injury during practice is the key to success. Please do all you can to get your athlete to practice daily. Hard work & dedication produce positive results.

Communication parents should expect from their child's coach:

- 1) Coach's philosophy.
- 2) Expectations the coach has for your child as well as other athletes on the team.
- 3) Locations and times of practices and events.
- 4) Team requirements, i.e., fees, special equipment needed, team rules
- 5) Procedures that will be followed if your child becomes injured during practice or a meet.

Communication coaches expect from parents:

- 1) Concerns regarding their son or daughter expressed directly to the coach at the appropriate time and place.
- 2) Specific concerns regarding the coach's philosophy and/or expectations.
- 3) Notification of any schedule conflicts well in advance.

As your child becomes involved in track, they will experience some of the most rewarding moments of their lives. It's important to understand that there may be times when things do not go the way you or your child wishes. These are the times discussion with the coach is encouraged.

If a parent has a concern to discuss with the coach, the following procedure should be followed:

- 1) Call the head coach to set up an appointment.
- 2) If the head coach cannot be reached, call the administrative assistant ask her to set up a meeting with the coach for you.
- 3) Think about what you expect to accomplish in the meeting.
- 4) Stick to discussing the facts, as you understand them.
- 5) Do not confront the coach before, during or after a practice or contest. These can be emotional times for both the parent and coach. Meetings of this nature do not promote resolution of the situation, but often escalate it.

What should a parent do if the meeting with the coach didn't provide a satisfactory resolution?

- 1) Call the VP of Operations to set up a meeting with the VP of Athletics, and coaches.
- 2) At this meeting, an appropriate next step can be determined, if necessary.
